Ms. Susan E. White, Ph.D., has been the Vice President of Research and Development for Cleverley & Associates since January of 2000. Prior to joining the firm, Dr. White was the Vice President for Data Operations for CHIPS/Ingenix. She joined CHIPS in 1994 and concentrated on the design and development of new clinical data benchmarking products. Dr. White served as an adjunct faculty member at The Ohio State University for 10 years where she taught various data analysis courses.

Dr. White has written numerous books and articles regarding the benchmarking healthcare facilities and the appropriate use of claims data. She has published articles in the areas of outcomes assessment and risk adjustment using healthcare financial and clinical data.

Dr. White received her Ph.D. in Statistics from The Ohio State University in 1991. She is a member of the American Statistical Association and the National Association of Health Data Organizations.

+ About the firm:

Cleverley + Associates is a firm specializing in providing benchmarking and consulting services to hospitals in the financial, operating, and clinical areas. The firm emphasizes data interpretation and business solution identification that will enable hospital clients to improve their financial performance. Cleverley + Associates is one of the leading firms in the United States providing strategic pricing studies to hospitals. A wide range of standard reports and customized consulting services are available to clients in various healthcare sectors.
